TOKENOMIC

TRIBEALUEN

Market overview

NFT stands for Non-Fungible Token, a special type of cryptographic token that represents a wide range of unique tangible and intangible items. NFTs are used in specific applications that require unique digital items, such as cryptographic art, digital collectibles, or online games.

Current market problems

The more the market develops, the more NFTs games are born, and users will face some difficulties.

- 01、** Managing items on different game platforms
- 02、** Looking for NFTs owners for sale/purchasing negotiation
- 03、** Showing off their NFTs collection to the community
- 04、** Generating more profits from the NFTs you own

Vision and mission

NFT is a hot topic these days as it is getting more and more attention from all over the world. Many big players have started their NFT projects, and lots of NFT projects have been released, such as collecting, farming to get the NFT and so on... But most of those projects omit stop right there: no goal, no innovation, no creativity.

PandaCoin is different. Our goal is to become the very first leading game on Binance Smart Chain (BSC). We have far more advantages and features:

- Floor Price - An innovation function bringing guaranteed liquidity for your NFT & can stack up its value over time through trading & other gaming activities.
- PandaCoin offers a platform with exciting gameplay rather than just a NFT collection platform. Users can experience their NFT heroes in many unique ways.
- PandaCoin has tribes of Goblins, Barbarians, Giants, etc, upgradev their heroes, equipment, pets, join guilds or combat with other guilds to get farming resources, protect their clans, fight bosses to earn amazing rewards.

About us

PandaCoin is a PandaCoin -theme dGameFi project based on BSC chain created by Finnish game company Supercell and PandaCoin Foundation which is also a real meta-universe game project at present, and will be gradually deployed on public chains supporting EVM (Ethereum Virtual Machine) in the future (such as HECO, MATIC, Sonal, OkexChain) for multi-chain operation. Meanwhile, PandaCoin will develop virtual reality scenarios in the future, and is committed to building PandaCoin meta-universe.

Co-founder of Supercell Game Studio

- First prize in "Chat Hanoi" Competition.
- VTV AutoDesk Flame Artist.

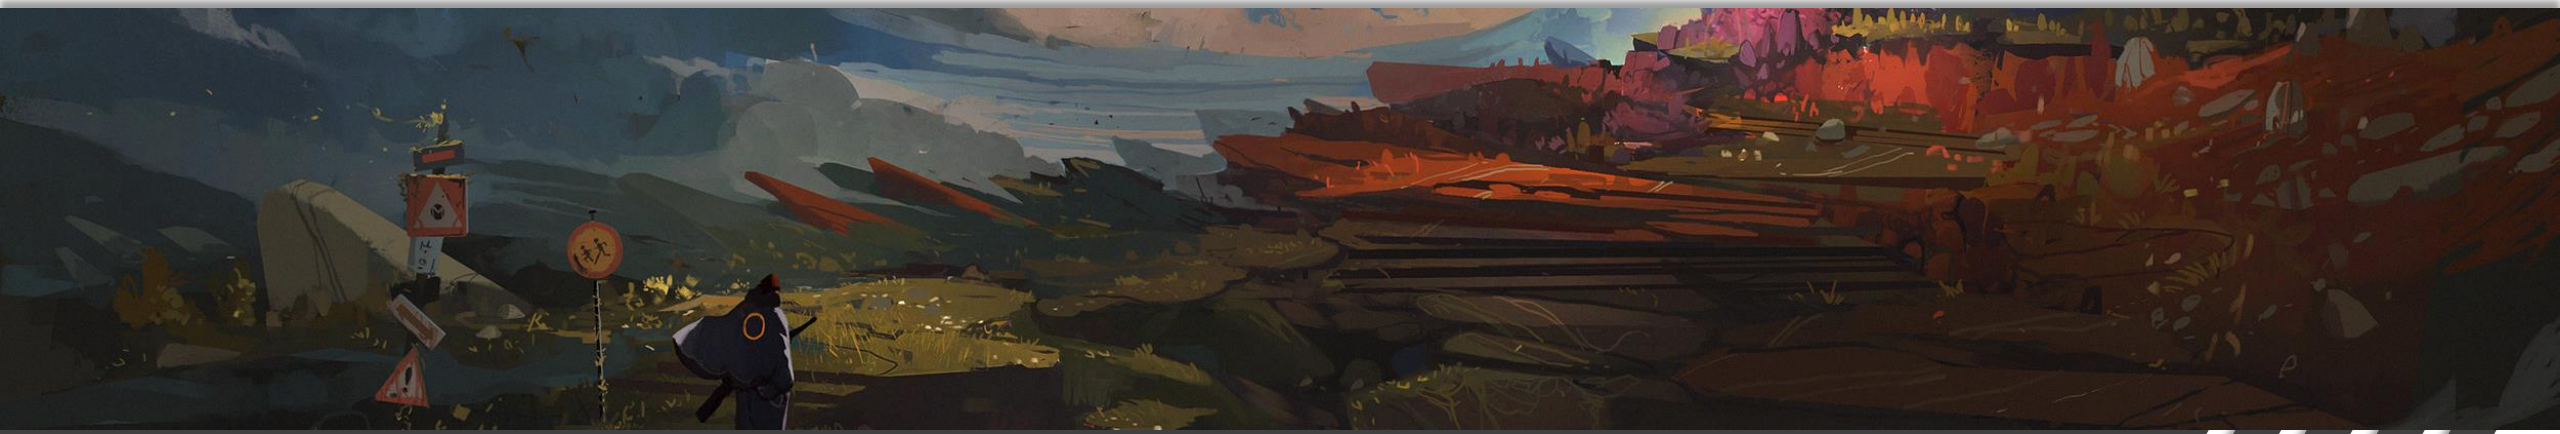

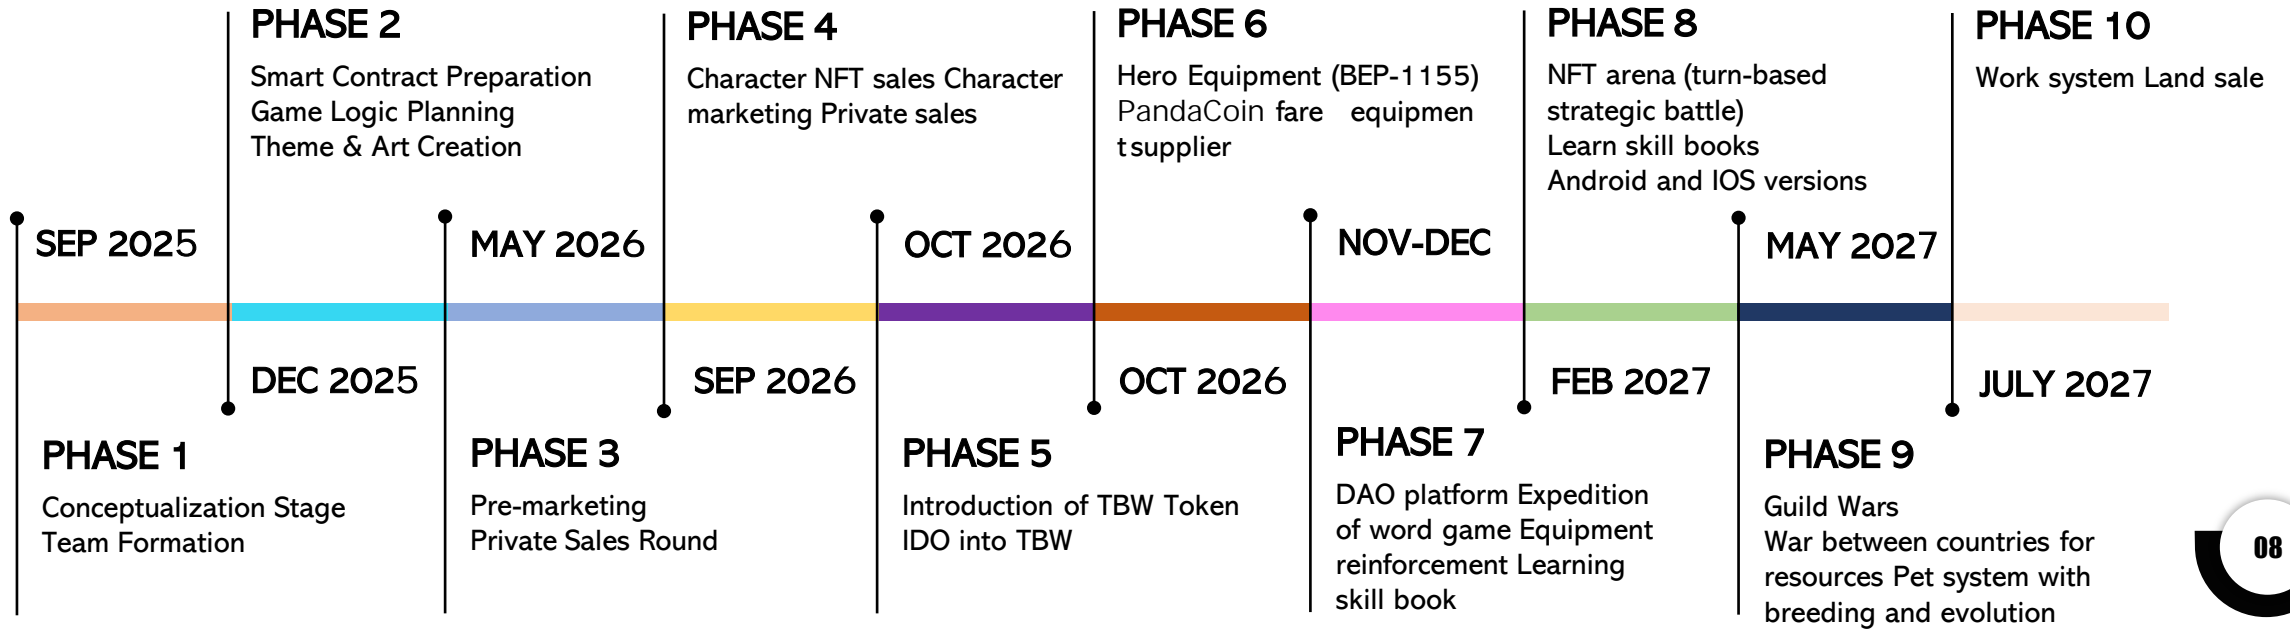

NGUYEN MANH TUAN
Lead Engineer

- Felizz co- founder.
- Have more than 7 years experience in fullstack development.

Roadmap

Road map Gameplay Phase 1

(SEPT 2025)

In this stage we carefully planned the entire story background as well as the selection of characters and crafted them down to the smallest detail. In addition to making them into NFT cards, the characters have a great deal of characterization in their related story lines. For example, color patterns and physical characteristics, as well as character props, weapons, clothes, mounts, etc., are described in each character's backstory.

PandaCoin Mateverse:

We have extensive plans for the entire PandaCoin Mateverse. Considering the project's theme and the team's role in the elaborate ecosystem and game on top of the blockchain, we think it will have a huge impact on the entire crypto world.

In order to meet all of PandaCoin's development goals, there are several different sales for each core type of asset as fundraising.

A different sale for each core type of asset as a fundraiser.

As a first step on the roadmap, it is divided into several separate phases. Of these most of them use the TBW token, which is a BSC standard token used in the complete ecosystem of PandaCoin Mateverse. as it is the best asset to use for liquidity and pre-sales.

PRIMEUR

Road map Gameplay Phase 2

(Dec 2025)

1、 Issue PandaCoin tokens. PandaCoin tokens can be used to:

Use PandaCoin token to change the hero's name. There will be one name in existence in the whole universe . So along with their unique appearance, the name is also unique.

Use PandaCoin token to upgrade equipment to its higher tiers. By merging a certain amount of the same items, the Equipment can be enhanced to its next tier with their form changed, the animated aura and of course, the increase in the attributes.

Use PandaCoin token to try your luck in a like equipment vending machine. By burning a certain amount of PandaCoin , players can get random items based on its rarity. If you are lucky enough, you can get really good equipment from the machine and make a fortune by putting on the Marketplace.

Raise heroes' floor price: users can burn PandaCoin token to manually raise the floor price of a hero. The maximum floor price of a hero that can be added by this way is 100 BNB (adjustable through DAO). If the floor price is higher than 100 BNB, this function will not be available and the value can be stacked up by trading and other gaming activities.

Use PandaCoin token to vote for various parameters in the game.

2、 Stake PandaCoin for EXP Farming

Make a Hero become stronger and prepare for a Duel Arena coming soon.

Road map Gameplay Phase 3

(May 2026)

PandaCoin is open to all investment institutions to raise funds

1. PandaCoin 's marketing team has joined forces with various media outlets around the world to launch a network-wide promotion
2. User can get the equipment by playing the PandaCoin (you must spend TBW Token for this action). The rare level of equipment will follow by this ratio.
3. User can buy/sell equipment on our marketplace.
4. User can equip many types of equipment for heroes. We have Weapon, Headgear, Amor, Footware, Pants, Glove and Pet.

Road map Gameplay Phase 4

(Sep 2026)

1. **User can upgrade equipment** by merging their lower level equipment to get higher ones (users must spend BNB for this action).
 2. DAO Platform for user voting.
 3. Skill book system release.
 4. Expedition game release. This is a text based game. In Expedition game, you can send your hero doing mission and earn reward. More heroes, more reward and more percent you can do a successful mission. Expedition games also have hidden missions to make the game more fun and addition
-

Road map Gameplay Phase 5

(Oct 2026)

1. **The heroes can start fighting with each other by Duel Arena with Ranking System.** The system will connect you with your enemy randomly, and you can choose “Accept” or “Reject” to fight/not fight. If you win, your NFT floor value will increase (adjustable through DAO) and the opposite will apply when you lose.
 2. Android & IOS version release.
 3. Troop Recruiting & Mount
-

Road map Gameplay Phase 6

(Oct 2026)

In this phase:

1. Users can use their heroes to kill the monsters to acquire many valuable resources and items.
2. The world map will be opened with many exciting things. At this stage, marching on the map will take more time. Therefore, users now can purchase camps with TBW and build them along the way to save their marching time. Users can lead their army moving to the monsters' cave to slay them.

Road map Gameplay Phase 7

(Nov-Dec 2026)

In this phase:

1. The mini map will be opened.
2. Users can conquest the resource miners to acquire resources.
3. The pet system will be released: Users will be able to incubate eggs to acquire pets.
The pet skills system will also be released in this phase.
4. Users can join guilds and combat with other guilds.
5. Tribal can fight with each other.

Road map Gameplay Phase 8

(Feb 2027)

In this phase:

1. Job system will be released.
2. You can own and decorate your own land, be a landlord.
3. NFT arena (turn-based strategic battle).
4. Learn skill books.
5. Android and IOS versions.

Road map Gameplay Phase 9

(May 2027)

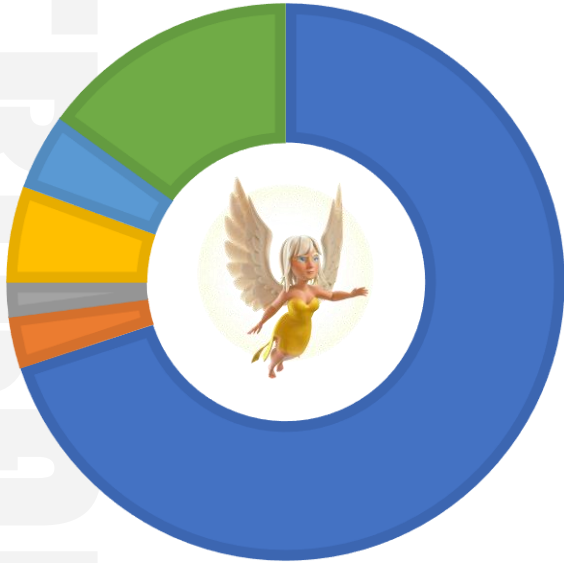

1. User can upgrade equipment by merging their lower level equipment to get higher ones (users must spend BNB for this action).
 2. In this phase PandaCoin will open up the resource competition mode between countries, as well as breeding and evolution system that includes pets
